PROFESSIONAL SUMMARY

Dedicated and curious Electronics and Communication Engineering undergraduate with a strong foundation in embedded systems, microcontroller programming, and digital electronics. Certified LabVIEW Associate Developer (CLAD) with hands-on experience in MATLAB, C/C++, Python, Java, and circuit design. Passionate about applying technical knowledge to real-world AI and embedded projects while contributing to a forward-thinking organization.

EDUCATION

Bachelor of Engineering – Electronics and Communication Engineering

Mahendra Engineering College, Namakkal / 2023 – 2027

TECHNICAL SKILLS

Programming & Tools

- Embedded Systems & Microcontrollers
- Arduino / PIC18F4550 Microcontroller
- Basic C / C++
- MATLAB (Beginner to Intermediate)
- LabVIEW (Certified CLAD)
- Digital Electronics & Circuit Design
- Basic Web & Tech Research
- Python Programming
- Java Programming
- Artificial Intelligence (AI) Basics

Professional Skills

- Teamwork & Leadership
- Time Management
- Effective Communication
- Critical & Analytical Thinking
- Presentation & Communication
- Self-Learning & Adaptability

CERTIFICATIONS

- LabVIEW Certified Associate Developer (CLAD) – National Instruments
- Network Specialist Certificate Program (In Progress)
- MATLAB – Beginner to Intermediate (Embedded Applications Focus)

PROJECTS & PAPER PRESENTATIONS

AI-Powered Fake News Detector

- Developed an AI-based application to classify and detect fake news articles using natural language processing (NLP) techniques.
- Trained machine learning models to analyze textual content and predict news authenticity with measurable accuracy.
- Implemented text preprocessing, feature extraction, and model evaluation pipelines for end-to-end news verification.
- Presented findings at inter-college paper presentation events, demonstrating real-world AI application in combating misinformation.

Embedded System Experiments using MATLAB and PIC Microcontrollers

- Conducted hands-on embedded system experiments integrating MATLAB simulations with PIC microcontroller hardware implementations.
- Specialized in summarizing and presenting technical research papers on electronics and communication topics.

ACADEMIC INTERESTS

Tamil (Native) • English (Fluent)

Numerical, Logical & Visual Reasoning • Electronic Hardware Experimentation • Directional Reasoning & Aptitude Problem-Solving

LANGUAGES

Tamil (Native) • English (Fluent)
